

## UPDATE – 33-35 JAMESTOWN ROAD, LONDON, NW1 7DB

(PLANNING PERMISSION 2024/4953/P)

The project is located at 33-35 Jamestown Road to the North and 211 Arlington Road to the East. The site wraps around the existing corner building at 31 Jamestown Road, a late 19th century public house. The project will comprise of 178 student bedrooms with associated amenity space, 27 affordable homes and nearly c.3,500 sqft GIA of flexible commercial space. The two buildings, designed in collaboration with Morris+Co will reach six stories at the highest point.

The project will feature a striking façade adorned with horizontal bands and fluted panels, paying homage to the historical context of the area. A shared garden with play space will be provided at podium level, accessible by both residents and students. This development is committed to BREEAM Excellent whilst targeting BREEAM Outstanding and is set to be amongst the first UK Purpose Built Student Accommodation projects to be accredited WELL Platinum.

### ON-SITE WORKS

Last month saw Arada London start the hard demolition to the existing buildings. Scaffold erection around the pub (31 Jamestown Road) also began. This is an important milestone for the project which will be followed by enabling works to allow the piling works to take place.

Dust, noise, vibration and ground monitoring sensors are in place to monitor demolition, and construction works, to ensure the acceptable levels are not exceeded. A monthly report will be issued to London Borough of Camden and, if requested, to the local community. This will also be displayed on the site notice board.

Following distribution of TTRO letters for Public Consultation to all neighbours and local businesses along Jamestown Road and Arlington Road, community comments were taken on board, and adjustments were made in agreement with residents and London Borough of Camden.

The 2nd meeting of the Construction Working Group, formed by residents and local businesses, will take place during the 2nd week of December.
